SUMMARY

Experienced leader after a successful career as President & CEO of IAI, and in the Israeli military

EDUCATION

Harvard University – Wexner Leadership Program

M.A in Public Policy and Administration

Cambridge, MA

2005

University of Tel Aviv

Bachelors of Science in Geophysics

Tel Aviv, Israel

1994

EXPERIENCE

Israel Aerospace Industries (IAI)

Tel Aviv, Israel

President and CEO

2018 - 2020

IAI is a global Aerospace and Defense company that designs, develops and produces civil aircraft, UAVs, fighter aircraft, missile, avionics, and space-based systems. IAI's world leading technological systems meet the most demanding real world defense and civilian needs. IAI has yearly turnover of ~\$4B (~80% outside of home market), ~15,000 employees, and operates in 90+ countries.

Key Accomplishments:

- Led the development of IAI's new corporate strategy, designed to rejuvenate a commercially stagnant organization by unlocking the potential of best-in-class technological capabilities
 - Set an ambitious 10 year growth roadmap, establishing investment priorities across the portfolio of businesses, including where to exit and where to double down
 - Redesigned the company's operating model, centralizing functions, upgrading procurement capabilities, and simplifying processes
 - Set clear KPIs that aligned desired behaviors with aggressive business outcomes
- Built a new leadership team from the ground up, attracting top talent from outside the organization, while promoting "the next generation" from within
- Led the cultural transformation of the company from "siloed infighting" to a "One company" mindset, operating as a joint team rather than a group of separate entities
 - Reset relationship with worker's union, developing a productive dynamic that enabled IAI to take bold steps towards its reform
 - Achieved continual quarter over quarter improvements in employee engagement, commitment and willingness to change
 - Achieved 2nd place ranking in "Israel's Top 100 Places to work", after Microsoft, and placing 7 spots ahead of Google, 8 spots ahead of Intel, 44 spots ahead of Amazon
- Led the company to achieve the highest rank in Israel in Corporate Social Responsibility 2019
- **Led IAI to its best ever financial results in its 67 year history:**
 - From a zero revenue growth decade to 12% growth in sales (passing \$4B within 2 yrs)
 - From a zero profitability decade to 6% Op. Profit
 - Achieved a record backlog of \$13B (>3 years of sales) in over 90 countries

EVP Strategic Planning

2018

IDF General Staff Headquarters

Tel Aviv, Israel

Head of Planning Directorate

2012 - 2015

Member of General Staff, the Israeli equivalent of the American Joint Chiefs of Staff. Led Israeli Defense Force's (IDF) processes and programs, including long-term strategic resources management (e.g., military budgets, weapon systems, and manpower).

Major General (Res.) Nimrod Sheffer

+447585256656

+972505100400

Specific activities include:

- Designed multi-year strategic plan to increase IDF operational capacity despite budget cuts
- Created national defense budget in collaboration with fellow military leaders, Ministry of Finance, and other senior government officials (e.g., Prime Minister's office)
- Championed technology development and infrastructure growth projects for the military

Israeli Air Force

Tel Aviv, Israel

Chief of Air Staff

2010 - 2012

- Led Air Force buildup (e.g., weapon systems development and procurement)
- Designed long-term and annual plans
- Planned and implemented strategic, infrastructure, and technological processes
- Managed Air Force's overall resources and inventory

Ramon Air Force Base Commander

2001 - 2004

- Commanded operational combat base and oversaw many air operations
- Introduced and managed rollout of advanced technological infrastructure

OTHER

Was the **Chairman of the Board** of ELTA Systems and IAI North America
